

COMPANY NAME

Industries Served Oil & Gas | Petrochemical | Surface Manufacturing | Energy & Utilities | **Marine & Offshore**

- Industries Served**
- Oil & Gas (upstream, midstream, downstream)
  - Marine & Offshore
  - Petrochemical & Refining
  - Surface Manufacturing & Industrial Facilities
  - Energy & Utilities

**Core Services**

- **Engineering & Design:** Mechanical, Electrical, Piping, and Structural systems tailored for offshore and onshore facilities.
- **Installation:** Safe and efficient deployment of equipment and systems, ensuring seamless integration with client operations.
- **Inspection:** Hazardous area compliance (ATEX/IECEX), quality audits, and technical dossier preparation.
- **Commissioning:** End-to-end commissioning support for mechanical, electrical, piping, and structural systems, ensuring readiness and performance.
- **Consultancy & Project Support:** Technical advisory, project management, and stakeholder alignment for small-to-mid scale projects

**Key Projects & Experience**

- **Mechanical and electrical installation support for offshore platforms and marine vessels.**
- **Hazardous area inspection and certification for Oil & Gas and marine operators.**
- **Piping and structural commissioning for industrial surface and shipboard systems.**
- **Workflow optimization projects reducing inspection turnaround times.**

**Why Choose Us**

- Startup agility, scalable growth
- Multi-disciplinary expertise across land and marine assets
- Safety-first approach with offshore readiness
- Partnership mindset with global adaptability
